

Remain tasks for Payroll Team

1. Income Tax for Other regions Except addis Abeba

- The integration of the Task Regions Logo into the Income Tax section is pending but will be completed soon.

2. Amharic Translation validation

- We are in the process of verifying the professionalism of our Amharic translations to ensure quality and accuracy.

3. Help Page

- The Help Page is nearly 90% complete. We still need to add some screenshots and content to finalize it.

4. Central Company Management

- We need to implement "Activate/Deactivate" actions in the Central Company Management module. And add tenant payment details.

5. Plan and Subscription

- Currently, we are working on the Plan and Subscription features, ensuring they meet project requirements.

6. Dashboard Content Updates

- We are adding additional content across all dashboards to improve user experience and functionality. And add subscription details for tenants dashboard

8. Administrative Users Page Role-Based Permissions Issue

- There is an issue on the Administrative Users page, specifically with the Role-Based Permissions section. We are actively investigating and will resolve this soon.

9. Generating Cost sharing report

- This is new requirement for the client

10. Filtering necessary reports using Tax-region. like income Tax, Pension, and resigned employees.

- This page requires additional investigation and updates

11. Issue with Start payroll when selecting payroll period

- This must be based on the fiscal year and payroll period

12. finishing the sort issue on all the page

- assigned to (Mekwanint)

13. loading page comes after all the data is deleted

- assigned to (Mekwanint)

14. Updating of User manual of system module with the latest update
